Instructions for Replicating Analyses in Stata

Block Jr., Ray, Matt Golder, & Sona Golder. "Evaluating Claims of Intersectionality." *Journal of Politics*.

Below we provide instructions on the Stata do-files and datasets necessary to replicate all of the quantitative results reported in "Evaluating Claims of Intersectionality." *Journal of Politics*.

- anes2016_small.dta provides the replication data.

- anes2016_analysis.do uses anes2016_small.dta to replicate the quantitative results reported in the paper. Among other things, these include the results shown in Table 2 and Figures 4 and 5.

- anes2016_analysis.log shows the output from anes2016_analysis.do.

- final_figures.tex provides the code to produce Figures 1-5. intersectionality_figures.pdf are the figures produced by final_figures.tex.
