

**TABLE 6.5****Economic Determinants of Democratic Survival**

Dependent variable: Probability that a country will be a democracy this year if it was a democracy last year.

Independent Variables	1946–1990	1946–1990
GDP per capita	0.00020*** (0.00004)	0.00020*** (0.00004)
Growth in GDP per capita		0.04*** (0.01)
Oil production		−0.21 (0.269)
Constant	1.13*** (0.13)	1.12*** (0.13)
Number of observations	1,584	1,576
Log-likelihood	−149.71	−144.11

\*\*\* $p < 0.01$
